

Weekly Report

2018.04.22-2018.04.29

Done

- Finish the data process tasks of the Songci project.
- Finish building the basic front framework of the Songci project.
- Learn about the Response layout
- Keep on solving the problems on LeetCode.

Work plan

- keep on going with the Songci project, do the front end with three.js and other animate frameworks
- In the near future, devote some time on "operating system" and "computer network" to enforce the fundamental knowledge
